# Wrapping up

- CR&D is an important component of Agroecological farming and a tool to increase the quality of European Agriculture
  - Inputs of experts reflect the reality not only of CR&D but of the whole Agricultural sector in EU
- Obstacles to innovation in CR&D:
- Lack of a quantitative monetary valorisation of ES
  - Cultural habits and behaviours at farm level
  - Specific agronomic conditions (LFA)

# What we need

- Education
- Linkages
  - Industries
  - Breeding
  - ICT
- Connections and organization
- Formation and advise
- Trust
- Knowledge
- Dissemination at all levels (EU campaign)
